

EDITION GUIDE

Learning Explorer

Featuring the benefits of our
Learning Object Repository

	Starter Edition	Professional Edition	Enterprise Edition
CONTENT*			
Curated Educational Resources 425k+ educator curated open educational resources (OERs) 1.7m+ copyright cleared images 2m+ curated educational videos from over 300 creators	✓	✓	✓
District Licensed Products Access digital content from a growing list of popular third-party publisher products frequently licensed by districts.	—	Up to 5 supported Publisher Products	Any number of supported Publisher Products
FUNCTIONALITY			
Integrated Learning Object Repository (LOR) Central store for information about all educational resources accessible to district based on product Edition licensed, and can ultimately support district resources, open educational resources (OERs) and third-party publisher resources separately licensed by the district.	✓	✓	✓
Unified Resource Search and Discovery Search and review all resources accessible via the LOR at the same time, powered by comprehensive resource metadata such as subject, grade, standards, resource type, instructional strategy, resource rating, Lexile®, etc.	✓	✓	✓
Drag and Drop Lesson and Curriculum Builder Easy to use lesson and curriculum builder — simply drag and drop resources into lesson collections and drag and drop lessons within the curriculum framework that you define.	✓	✓	✓
Google Tools Integration Teachers can seamlessly integrate their existing resources stored in Google such as Docs, Forms, Slides, Sheets, Drawings and Jamboards directly into lessons created with Learning Explorer and resources from the LOR.	✓	✓	✓
Seamless Lesson Player Students interact with lessons and their resources via a playlist experience delivered in a seamless, secure player than can be run directly in a browser or linked by the teacher via a digital learning system.	✓	✓	✓
Administration Tools Content manager for controlling user visibility to resources in the LOR and standard reporting for system, resource and lesson collection usage.	✓	✓	✓
Sharing and Collaboration for Teams Features to support collaboration between colleagues and teams such as PLCs, such as lesson sharing and team-based review and editing.	—	✓	✓
Advanced Search and Discovery Advanced navigation in the search and discovery process to support resources from certain third-party publishers of core curriculum.	—	✓	✓
Seamless LMS Integration Teachers can search and assign individual resources or entire lesson collections from Learning Explorer directly in Google Classroom, Canvas or Schoology, and students enjoy lesson and resource access via the Learning Explorer player right inside the LMS.	—	✓	✓
Enhanced Administration Tools Enhanced permission management in the resource content manager, expanded usage reporting and even brand Learning Explorer with your district's logo.	—	✓	✓
District Resource Sharing Teachers and curriculum departments can store and manage existing district resources and metadata in the LOR for all teachers to search and use in lesson collections. Lesson collections built by teachers or curriculum departments can also be published to the LOR so they are searchable and reusable by all teachers across the district.	—	—	✓
Curriculum Management A flexible curriculum management framework to allow districts to provide teachers with as little or as much curriculum guidance as they wish. Supports simple or complex curriculum frameworks all the way through to complete curriculum with district created course, units and/or lessons.	—	—	✓
Integration with other Digital Learning Systems LTI and API integration of Learning Explorer with other digital learning systems such as assessment systems and parent communication and engagement systems.	—	—	✓
Advanced Administration Tools Workflow and permission management for district published resources and lesson collections, and advanced usage reporting and analytics.	—	—	✓
